Working with a team?

GitHub is built for collaboration. Set up an organization to improve the way your team works together. and get access to more features.

Create an organization

Introduce yourself
The easiest way to introduce yourself on GitHub is by creating a README in a repository about you! You can start here:

ashvanikumar145 / README.md

1 - 🙂 Hi, I'm @ashvanikumar145
2 - 👀 I'm interested in ...
3 - 🌱 I'm currently learning ...
4 - 💞 I'm looking to collaborate on ...
5 - 📫 How to reach me ...

Discover interesting projects and people to populate your personal news feed.

Your news feed helps you keep up with recent activity on repositories you watch and people you follow.

2

Name the repository make it public or private and click on create repository

Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere? Import a repository.

Owner * **Repository name** *

ashvanikumar145 ▾ /

Great repository names are short and memorable. Need inspiration? How about **refactored-doodle**?

Description (optional)

⦿ **Public**
Anyone on the internet can see this repository. You choose who can commit.

○ **Private**
You choose who can see and commit to this repository.

Initialize this repository with:
Skip this step if you're importing an existing repository.

☐ **Add a README file**
This is where you can write a long description for your project. Learn more.

☐ **Add .gitignore**
Choose which files not to track from a list of templates. Learn more.
